The image shows a close-up of a highly textured surface, possibly a piece of art or a material like sandstone. The texture is characterized by numerous small, irregular ridges and valleys. The color palette is diverse, featuring shades of light blue, off-white, beige, and various tones of brown and orange. A prominent feature is a dark, almost black, horizontal line that runs across the middle of the frame, slightly wavy. Below this line, there are patches of a more vibrant orange-brown color. The overall appearance is that of a complex, layered material with a rich, tactile quality.

SOFT SANDS

A close-up photograph of a textured surface, possibly a wall or ceiling, featuring a prominent horizontal band of shimmering gold paint. The background is a mottled mix of light and dark grey tones with a fine, pebbled texture. The gold band is irregular and has a metallic sheen. In the upper right corner, there is a white rectangular box containing the text 'Details' and 'SOFT SANDS'.
